

Slot Mounted Ear Muffs are available for Bullard Cap style hard hats (C30, S51, S61, and S62) with accessory slots. Protecting workers against hazardous noise helps reduce the risk of hearing loss. Bullard's Slot Mounted Ear Muffs meet OSHA's Noise Reduction Rating (NRR) requirement of 28 dB. This level of protection is ideal for workers in high noise environments such as manufacturing, mining, oil and gas, or transportation.

## Bullard Ear Muffs

Figure 1

1. Ear Muffs Parts include (Figure 1):

- Black Accessory Clips fit into Bullard Hard Hat
- Adjustable Wire
- Ear Cups

Figure 2

## Attaching Ear Muffs to Hard Hat

2. Open bag and remove Ear Muffs (Figure 2).

3. Adjust Ear Muffs so the Accessory Clips are slightly above the muff cup. Do this by gently pulling the wire frame from the black slots (Figure 3).

Figure 3

4. Rotate the Accessory Clips upward so clips are able to be pushed into the hard hat (Figure 4).

Figure 4

5. Once the black attachment piece is in the upright position, the Ear Muffs can be attached to the hard hat by snapping the clips into the hard hat's accessory slots (Figure 5).

Figure 5

6. Now pull the Ear Muffs down over the ears (Figure 6).

**Figure 6**

7. Ear Muffs can be positioned in the front or back of the hat when hearing protection is not needed (Figure 7).

**Figure 7**

### Removing Ear Muffs from Hard Hat

8. To remove Ear Muffs from hard hat, remove hard hat from head and turn it over to see the inside of the hat. Locate the accessory slots on the side of the hat and gently push in on the black tabs to release the clips from the slots (Figure 8).
