

LT Series Structural Fire Helmet

**Lightweight.
Heavy Duty.**

LT Series fire helmets are designed Bullard Tough for extreme conditions. The tough shell, lightweight and compact design have been re-engineered to offer even more headroom and comfort – making it the most comfortable low profile helmet on the market.

Tough and Durable

The outer shell of the LT is made of the same high-heat Ultem® thermoplastic used in Bullard PX fire helmets and thermal imagers. This thermoplastic provides unparalleled impact and penetration resistance. The revolutionary patented nylon impact cap performs like a traditional impact cap, helping protect against falling objects and heat rise, while offering a sleek, easy to clean surface.

NFPA Approved

The LT Fire Helmet exceeds the NFPA 1971, *Standard on Protective Ensemble for Structural Fire Fighting and Proximity Fire Fighting* Pertaining to Structural Fire Helmets.

Quick, Easy Sizing

The LT is designed for exceptional balance, comfort, stability and interface with respiratory equipment. The Bullard Sure-Lock® ratchet headband offers both a quick-turning sizing knob and a unique three-position height adjuster to create a completely personalized fit. The LT helmet is equipped standard with a leather ratchet cover.

Eye Protection Made Easy

Bullard LT Series helmets come standard with the innovative Quick-Attach Blade system. This system permits the wearer to instantly press on or off either a blade-mounted faceshield or blade-mounted goggles. This flexibility gives the firefighter the advantage of the right option for the right application without time consuming component changes. The LT comes standard with 4" faceshield. ESS FirePro and Inner Zone goggles available for additional charge.

Cost-Effective Maintenance

LT helmets are designed from the start to make maintenance easy and cost-effective. Fewer components and one of the lowest total costs of ownership in the industry will truly make your LT helmet a long-term investment. Plus, special mold-formed faceshields mean less stress cracking and longer lasting faceshields.

Engineered for Comfort and Protection

The Bullard patented M-PACT Shell with SmartRidge design provides thermal and impact protection while offering more headroom for a comfortable fit.

Integrated Helmet Lighting Available

The LT Fire Helmet is available with Bullard TrakLite® helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination. Added safety features include the rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation.

A Custom Fit

All Bullard fire helmets are equipped with the U-Fit System, offering 12 custom comfort settings. By engineering our helmets to include 12 points of adjustment, you can adjust the ride and balance of your helmet. It's like having a custom-fitted helmet, designed just for you.

LT Fire Helmet

Technical Specifications

Dimensions: 12 3/4" L x 10" W x 6 1/2" H
 Outer Shell Material: Thermoplastic
 Inner Shell Material: Nylon Impact Cap
 Suspension: 4-point nylon crown strap
 Warranty: Date of Manufacture; five (5) years on shell, 10 years on non-electronic components

- 5 Four-point crown strap assembly**
Comfortable suspension system for extra protection against impact.
- 6 4" faceshield**
Rugged, optically correct faceshield eliminates distortion and reduces eye stress and fatigue.
- 7 Nomex® chinstrap**
Chinstrap with quick release buckle is comfortable and fire resistant.
- 8 Quick-Attach Blade System**
The easiest way to quickly change out face protection; offered exclusively by Bullard
- 9 Scotchlite® reflective stripes**
Highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.
- 10 Stainless steel D-ring**
Large, durable D-ring allows you to hang your helmet on virtually any size hook.
- 11 Three position ratchet height adjuster (not shown):**
The height adjuster is the base of our 12-point comfort system. Adjust to ride high, low, or somewhere in the middle for a custom fit.

- 12 TrakLite® Integrated Lighting**
Available with Bullard TrakLite helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination. Added safety features include the rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation. Select models can also be retrofitted to include TrakLite.

- 1 GE Ultem™ thermoplastic outer shell**
The durable heat-resistant thermoplastic shell has color pigment molded throughout and edge beading that will not melt, drip or ignite when tested to NFPA, 1971
- 2 M-PACT Shell**
Superior protection is provided by Bullard's patented M-PACT shell with SmartRidge design, providing increased protection while remaining lightweight.
- 3 Sure-Lock® ratchet headband**
Sure-Lock is the top performing ratchet headband, made exclusively by Bullard. Comfort brow pad is removable and washable or replaceable.
- 4 Rip-stop Nomex® ear/neck protector**
Heat-resistant and backed with two layers of fire-resistant cotton flannel for comfort and protection. Nomex is a heat and flame resistant fabric made by DuPont. Provides premium protection in high heat situations.

LTX Deluxe Helmet System

- Black inner shell (R929)
- Sure-Lock ratchet suspension (R624)
- Black rip-stop Nomex ear/neck protector (R721)
- Quick-Release buckle chinstrap (R145)
- Removable fire-resistant cotton brow pad (R634)
- Quick-Release/postman slide chinstrap (R141)
- Edge beading
- Leather ratchet cover (R160)

Options at no additional charge:

- R325 6" Faceshield
- Red-Orange Reflective Scotchlite Stripping
- R721YLW Yellow Nomex Ear/Neck Protector

LTG4X Deluxe Helmet System with Goggles (additional charges may apply)

- Same as Model LTX, except with Quick-Attach ESS FirePro or Inner Zone Goggles in place of faceshield
